

- In this header we need to make all navigation dynamic from backend.
- We need to make search bar workable.

I WANT TO ↑

Pay My Taxes	Apply for Trade License	Solid Waste Management
Report an Issue	View Current Jobs	Visit a Library
Visit a Hospital	Sports & Recreation	View More Services

This section was coming from backend but from some issue we had to make it static. So we need to make it dynamic.

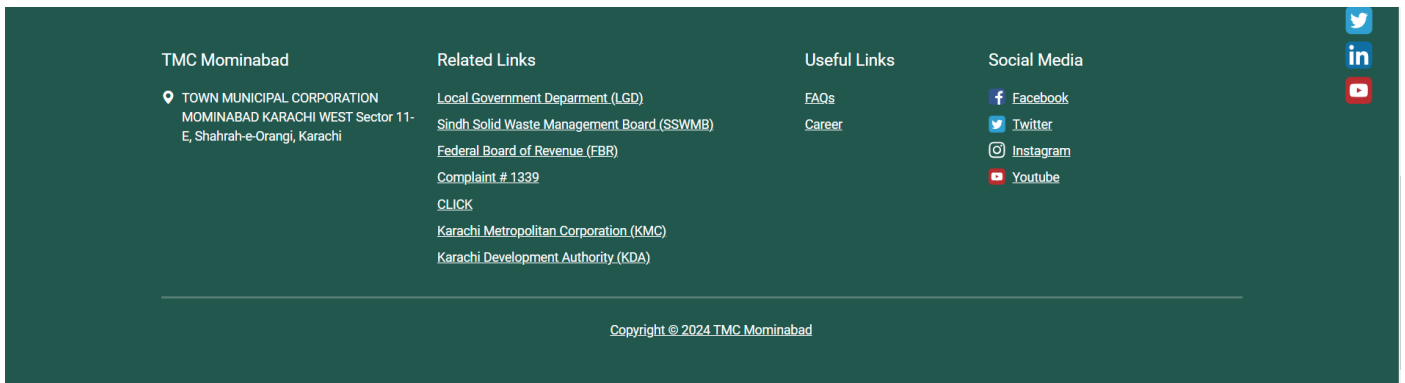

Also, we need to make slider dynamic with no limit because user can add and remove slider images according to him

SERVICES

 Parks And Playgrounds	 Animal Shelters	 Shelter Homes
 Hospitals	 Libraries	 Community Centers

This section are working perfect. Its all the tings coming from backend.

We need to make footer links and content dynamic.

NAVIGATION:

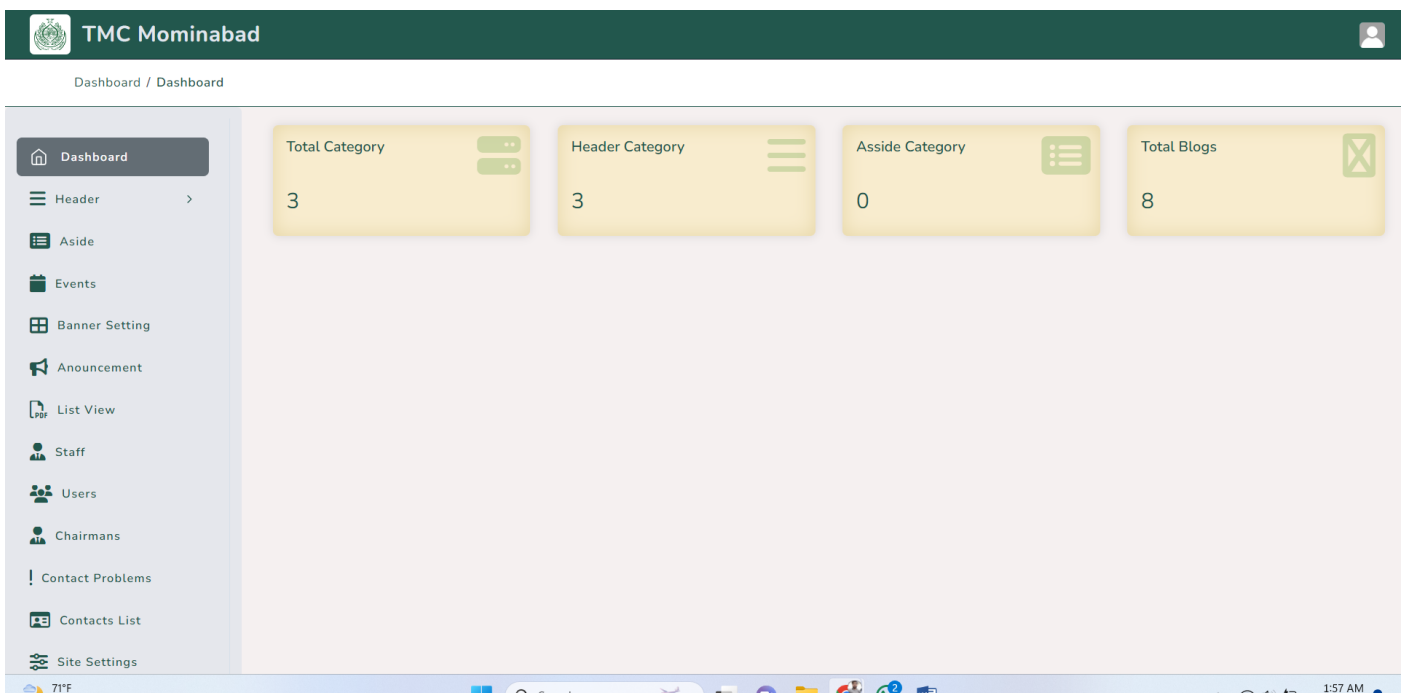

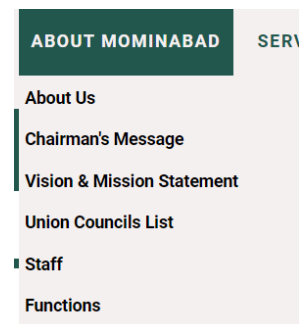

We need to make all the page should be dynamic.

I'll provide you website link so you can check complete site and review it and

Then let me know.

WEBSITE LINK:

<https://tmcMominabad.gos.pk/>

This is backend panel look like. I'll provide you complete details when we meet.
